THE ILLUMINATI MURDERED THE FOUNDING FATHERS

The illuminati think of themselves as the Pirates of America - they came in and stole the American ship from our Founding Fathers. The Founding Fathers created our Constitution to protect us from the illuminati. Our ship of state was founded to escape control of the illuminati in the old world. They were the pirates who came in and stole away the American ship of state. One of the most important ways they were able to steal America away is through assassinating our Presidents. Altogether the illuminati has assassinated 8 of our Presidents out of 45.

From 1776 to 1840 there were no Presidential deaths in office. There were no assassinations or deaths from illness for 64 years. Then over the next 120 years there were 8. 5 in the following 64 years and 3 after that. Masonic Europe controlled by the illuminati has always been trying to destroy our country - from the very beginning.

THE ILLUMINATI ASSASSINATED ALL THE FOUNDING FATHERS LATER IN LIFE. Thomas Jefferson died on July 4, 1826, the 50th anniversary of the Declaration of Independence. John Adams also died on that day, five hours later. That's not a coincidence. The illuminati murdered both of them as well as George Washinton and Benjamin Franklin.

Thomas Jefferson and John Adams were the last surviving members of the original American revolutionaries who had stood up to the British empire and forged a new political system in the former colonies - the rest had already been murdered by the Masonic Jews. They didn't hate each other, that's all illuminati bullshit. On July 4, 1826, when Adams lay on his deathbed while the country he helped found celebrated Independence Day, his last words were... "Thank God, Thomas Jefferson still survives." He was mistaken: Jefferson had died five hours earlier at Monticello at the age of 82.
