## THE ILLUMINATI WAR ON WHALES AN DOLPHINS

The Japanese Illuminati have been carrying out a war against whales for decades. **THE JAPANESE USE A "RESEARCH EXEMPTION" TO KILL WHALES EVEN THOUGH THEY ARE NEAR EXTINCTION. THE JAPANESE ILLUMINATI EVEN KILL PREGNANT WHALES.** The Japanese claim they are just killing the whales to "research them" but this is all bullshit. Japan's so-called research whaling program is far from scientific: Thanks to unprofessional methodology and sloppy standards, its findings are widely regarded as risible. Some 3,600 whales have been slaughtered since 2005, but Japan's Institute for Cetacean Research (I.C.R.), the de facto government entity that oversees the country's whaling program, has only two peer-reviewed scholarly articles to show for it. And much robust testing doesn't even require killing whales. **WE MUST END WHALING, IT IS BARBARIC.**

**THEY HAVE NEARLY KILLED ALL THE WHALES.** The documentary "The Cove" looked at how the Japanese murder dolphins cruelly. They do mass dolphin hunts and kill them in huge numbers. Who does that to dolphins? The people who made the cove risked their lives to expose the horrors of the dolphin industry in Japan. In the first part of this trailer, they even mention the Yakuza following them.
