POPE MOVES PEDO McCARRICK NEXT TO ELEMENTARY SCHOOL

The amount we allow the Catholic Church to deviate from all socially accepted norms is very dangerous for America. The Catholic Church and the Pope Francis - the Anti-Christ who leads the great church of the Beast - thinks he can just put his sick pedophile priests wherever he wants in America.

It has just been revealed that disgraced pedophile Cardinal McCarrick has been relocated a block from an elementary school by Pope Francis and the Catholic Church. The School was not informed that the Church had moved a priest suspected of pedophilia 1 block away from young children. The Church didn't notify the school and for because the Catholic Church is allowed to move their pedophiles around all the time without any repercussions, the government didn't know about McCarrick either.

THE ARCHDIOCESE OF WASHINGTON CONFIRMED IN A STATEMENT FRIDAY that former Cardinal Theodore McCarrick is living at St. Fidelis Friary in Victoria, Kansas, which is within a block of Victoria Elementary School.

The Kansas City Star reports that the news of McCarrick's new living arrangement took school officials by surprise. Victoria Elementary Principal Kent Michel says he only learned of it Friday through social media posts.

The 88-year-old McCarrick was the retired Archbishop of Washington, D.C., when he was removed from public ministry in July after the church found credible allegations that he sexually abused children.
